Look out for the sleek-tongued varients that tell you the Advance is not the best machine in the market. Those that tell you falsehoods are not worthy of boing called by any ather name. The ADVANCE is guaranteed to do more and better work than any other machine in the market, and is the only machine on the Coast that has NEVER been replaced by other machines. Other dealers have offered new Gaschines for an ADVANOE that has been run two years, and have given parties to Furnish a mineral water for table use, equal to any of the Mineral Waters now upon the market, with the advantage of being fresh from the springs, and delivered in stone jugs to any part of the city every morning. Leave orders at caesbines for an ADVARUE that has been run two years, and have given parties to understand they would give differences, but were told that the ADVANOE, after two years' run was still much better than old fogy machines, if they were new. And if the ADVANCE engine is not the best traction engine, why is it that I have sold TWELVE on the West Side, between Portland and Corvellis this wer? Peruvian Eitters.

An Appalling List of Those Who Suffered Losses.

THE NORTHERN PACIFIC'S LOSS

the News Sent the Outside World-A Busy Scene.

SPOKANE FALLS, Aug. 6.—The rising sun this morning seemed to have dispelled the gloomy appearance that was depicted upon the countenances of the chizens the day before. Everyone

There was no little excitement when it was learned that three leading banking institutions had purchased property on the corners of Howard and Riverside avenues, paying an amount aggregating \$100,000. This fact seemed to infuse now ills into everybody, and even those who were most disheartened on blonday wore pleasant smiles and commenced to predict a grand future for our

city. Roporters interviewed a number of citizens with regard to the future of Spokano Falls. All were unanimous in saying that the prospects were better than ever, and that as fast as the material could be secured and put into the form of buildings the work of rebuilding the city would progress. They are inspired with renewed confidence by the fath exhibited by ottside capitalists, who are constantly telegraphing to the effect that pienty of money will be furnished for building and other legitlmate purposes, and some are beginning to regard the calentity as fruitful of good results. Trunks, Valises!

Several Carloads of Goods Were Saved-

Brokane Falls, August 6.—It is as yet impossible to estimate the extent of the losses sustained by the Northern Pacific railroad. The value of the two depots, passenger and freight, may be easily arrived at, but that of the goods stored thereigh cannot be reached until all the claims against the company are adjusted. On Sindly ovening a long train of stacars was londed hastly with the most portable freight in the depot, but three of the eras in the rear of the train caught fire before the train was ready to pull out, and were left. These, with their londs of freight, were consumed and were the only cars lost by the company.

The irelight lost consisted largely of weighty and bulky articles that could not possibly be removed in the emergency then existing. Hacknowled in fit were several pieces of valuable machinery that were course outled by continuous and course outled the train men to design and paid out in these to say what had altered beautyper. The old buildings were amply insured.

Alken moved to lay the memorial on the table, but a vote of the members prevented its being thus disposed of. at a vote of the memors product in stage of the memors in stage of the Luce favored referring it to the committee of the whole for further consideration and to have printed so that it could be studied with delibration and prevent hasty action.

Warren objected. He did not want his memoralization. alive.

Cooper said that it was a political dedge, and was nothing more nor less than a protection

was nothing more nor less than a protection scheme.

Wheren explained that the memorial was mailed to him to present, just as it was to lidabe and Washington, and those territories had already adopted. A telegram from there this morning asked him what was the matter with Montana.

Craven said although he was a republican and a protectionist, he could not vote for this memorial being placed in the constitution, for he did not consider that that was any place for it.

Hersafield objected to the language in which it was clothed. It was not dignified and proper and he could not vote for it on that account.

Maguire said if it was in the nature of a censure of the president and secretary of state, they would better be a little bit careful of the adoption of it. The report was referred to a committee of five.

It is conceeded by everyone that the city front has but little fire protection and that Fast I ortland and Aib na are very deeply interested in the proposition to place a fire boat on the river that is being discussed in lor land. In case of fire on the fiver front, it would be a problem how to get the english to the water. It would not be safe to trun the english to the water. It would not be safe to trun the english to the river, as if might be cut off by the fire. There are only a few places where the english to the first not with the treer in any event. The river from will always le on a system of cleaned readways, as far hack as Fourth Strott an a fire load would afford protection over that far book. East Portland should take some action and let 10 for the Acceptable.

A NEW ABSURDITY

That representative democrat Speaker That representative deficiency of Carlists opposes national aid to steamship companies. He even characterizes the proposition as abourd. The treatment of this question by other countries and the results therefrom rather indicates that the only about the countries are the countries. Surdity lies in the fact that able as he is Mr Carlisic either cannot or will not admit the necessity of favorable action by the govern ment of the United States upo a this neces England began the experiment 11 1838

England began the experiment 11 1878 when barnut Cunard was paid \$ 000 to build and operate his line which at count was frequently increased. In 1840 the Royal Mail Steamship. Packet Company received \$1,200 000 in 1840 the Penhisular Oriental Company are used to the Penhisular Oriental Company are used to the part of ment until the total amount paid since 1810 has reached the startling sum of \$72.555.500 while at the present time England p 1ys her steamship lines annually the sum of \$3.00 000 Canada pays \$500.000 to her shippers and so far from objecting to subsidies has granted to the Canadian Pacific railroad the mm of \$215 000 000 and likely to grant still

It is not only the greater nations that per sist in this so called ab urbit. Is the year 1880 Japan paid out in ub bles \$5.0 000 Hally \$300 900 Belgium \$050 000 and Bri 21 \$1 700 000 Many of the I uropean : ations strive to seeme a share in the gre t bouth American trade which in 1887 amounted 11 imports to \$342 000 000 and in exports to \$131 000 000 with the not a reasonable pre pect of doubling in a decale. This hope is not surprising when it is remembered that the southern end of this continent has an area of over 8 000 000 square miles at d + 1 opulation of nearly 50 000,000

The producers and manufacturers of the United States raise and make more products and goods than our possibly be consumed for naive use. From 1850 to 1850 the man nfactures alone increased 408 per cent. The estimate is that 1890 will turn out \$8,000,000. 000 worth of goods Yet Mr Carlisle stamps it as absard when an attempt is made to se cure national and toward finding a foreign ontlet for all the surplus wealth which is it only be true wealth where a paying market for it is found. It is absurd too according to him to keep the vast sums paid for ocean freightage in the country and thereby en tich our own people It must be confessed that it this be abourd a good amount of it can be injected to advantage into American

The fire at I en lieton bunday caused a tosa of about \$10 000. Though by no means trifling to those who suffered it is completely overshadowed by the calan my that swept away \$10 000 000 worth of property in Spokane Falls the same day. Only the prompt action of an efficient and well equipped fire service saved the city as averything is dry as under in the Iuland Empire, and the wind is on its summer hold day throughout all that region. Care and watchtdiness are worth everything under any circumstances, yet in spite of the utmost vigitance there is a general dread of any circumstances, yet in spite of the utnest vigitance there is a general dread of Sre, hightened no doubt by the disasters it has caused in the Northwest the scason, that would make the people of Oregon welcome. mat would make the people of livegon wel-some rain—not a runmer shower, but a steady downpour, lasting twenty four hours and discounting in precipitation the record of a November day. However, nature hav ling been unkind to our agricultural interests, by withholding rain earlier in the season, seems disposed to make up less her niggard-

liness by giving the farmers a dry harvest and there is nothing for mania to the mess by giving the larmers a dry naivest and there is nothing for people to do, whose property interests, and managed by are but to carreles care and patients and give the frame and his higher to quarter

The people of Southern Organ are stren upday opposed to the abandonment of Fort Kanjath and their protest in the case has been answered by a stay of proceedings on the part of the military authorities. These together with the minerals lesser importance, bring the aggregate up to about \$000 000 000 and the bowels of the earth are still rich with gold silver and coal enough to supply the wants of millions yet

A second death has resulted from the wanmuschief of the three young men who closed a Sunday spree by breaking open the closed a suitch at Albany If juries do their duty in the premises the fun will be taken out of this vort of a proceeding by a method which the law clearly prescribes and which while the haw deanly in each proposible and will serve as a warning to irresponsible and victors boodiums throughout the state. The serious question involved in the punishment of these criminals s the protection of those who use and those who operate the rail-roads Mercy in such a case leans toward the public rather than toward these who are a menance to its safety

Another declaration of affection of a quality and fervor that become quite common was mide through the agency of a pistol in San Francisco Monday. The regular routine was observed. The husband not being able to live with his wife shot her and not being able to live without her finished the job by shooting himself. Both died and all for love. And jet there are persons who think that this is a prosaic age, and that it arriage is a failure because it takes and the devotion and romaice out of life. Out upon evotion and romai ce out of life. The decrease in the number of failures and the liabilities involved therein for the month ending July 31 1889 in the state of Oregon is a fair indication of conservative business prosperity. During this month there were six failures with liabilities of \$5179 : a against seven failures with habilities of \$61 400 for the same period of list year This is smaller proportionate loss than in either Washington territory or California

The Portland Woman's Union held its quarterly meeting Monday and the reports show good work. The society needs more room in order to accommodate all applicants and could utilize considerably more funds than presently at command. ANOTHER TRAIN ROBBERY.

Six Masked Men Riffe a Mall and Express

Car—About 2000 Secured

Foar Worth Tex. Aug 5—Six masked men stopped the Fort Worth & Denver mail and express train, south bound between the Cheyenne water tank and Taxcaso early yesterday morning. Three men got on the locomotive and compelled the engineer to pull away from the passenger conches, which had been detached by the robbers, and left under the guard of the other three. After going half a mile they compelled the engineer to leave the engine and bring a pick to force open the door of the express car.

Express Messenger March seeing what was up barricaded his door and secreted at express packages but three after which he let the robbers in under the threat of being shot. They took three packages and then compelled the mail agent to open the door of his car. He had hidden all his registered matter but one letter under a suck. The robbers got this package, and then opened and scattered the engineer to doing the Work they ordered the engineer to and then opened and scattered the contents of the mail pouch on the floor After doing the work they ordered the engineer to pull out. When they were gone the authorities in several neighboring counties were notified and are now in pursuit. It is said that the total amount secured is less than \$2000. The robbers fired twenty or twenty-five shots at the express mr. The passengers were greatly frightened but none of them were molested in any way.

CONSUMPTION ! (PHTHISIS)

Fifty Thousand People Die Annually From It.

IN THE MIDST OF LIFE WE ARE IN DEATH' Army Picked from the

At the head of diseases of our climate stands consumption—at their head—both as it respects prevaience and fatality. Small pox, yellow lover and cholera are tertible in their visitations, but what are all their aggregated staughters compared with the ceaseless, silent march of this fell disease, which steals nway in their fresh prime the hright est and the best? It is accertained on good authority that from 60 000 to 60 000 die an nually from consumption. What an army! Licked from the choicest! All sundered from his untimely, and leaving more blight and sorrow behind than would perhaps twice or thrice the number whom any other pestilence would have sciented. The magnitude of the evil places the question of the remedy before all others that portain to the healing art.

Catarrh is often the forerunner of consumption. The symptoms of a patient suffering from catarrh of the throat and brouching tubes are the symptoms of consumption in its early stages. It has been part of the faith the reduced profession, as well as a non-

tubes are the symptoms of consumption in its early stages. It has been part of the faith of the medical profession as well as a universal popular belief that mether catarrh nor consumption could be cured.

The Drs. Darnin have proved by their system of eactro magnetic treatment that catarrh can be corred and also consumption in its early stages. They have the secret of the new cure for consumption by rectal in ject on now being practiced in mainly from inert bospitals with great success, and is pronounced by the most eminent medical authorities as the only cure known.

As catarrh is most always its first and earliest ay inptoma, and is the chief cause of asthmi, brorchitts and deafness and also produces stricus results in the senses of simult hearing sight or taste it should never under any circumstances be neg lected, as it is the most treacherous and in additions of all diseases, and never cures itself but grows worre.

The banks have already obtained temporary quarters, and several have opened for business.

The work of cleaning the debris has all ready commenced and the work of rebuilding will be commenced at once. Dangerous walls are now being form down. A militia company is guarding the burned district, while mounted guards patrol the whole city. The local company will be relieved to-day by a company from Walls Walls.

The city council held a meeting and discussed a resolution prohibiting the erection of wooden buildings in the burned district and a mass meeting of citizens suitzaned it with a unanimous voice. It will be passed at a regular needing Wednesday evening.

The council passed resolutions revoking the beenes of all bottles and restaurants and dealers in provisions who advances prices. Only two snloons remain and they have been closed by order of the mayor.

The council ordered the committee on fire water and sewers to investigate the cause of the absence of the supermembers of the water works as the men left in charge were incompetent.

A bopeful feeling prevails and although the destruction will retard the progress of the city for some time. Epokane Falls will riso grander and better than before and will still claim its position as the commercial and railway center of Eastern Wash ington.

What will SAPOLIO do ? Why it will clean paint, make ell-cloths bright, what will SAPULIU do I why it will clean paint, make eli-clouds stright, and give the floors, tables and shelves a new appearance. It will take the grease off the dishes and off the pols and pans. You can scour the knives and forks with it, and make the the things shine brightly. The wash-basin, the bath-tub, even the greasy kitchen sink will be as clean as a new pin if you use SAPOLIO. One cake will prove all we say. Be a clever housekeeper and try it.

RAGING FOREST FIRES.

The Flames Making Things Lively in the Timber Along the Lower Columbia.

ber Along the Lewer Columbia.

Fires are raging at present in various sections of the country, destroying a great deal of both standing and fallon timbor, to say nothing of immensaquentities of cordwood. Forest fires are burning hereby on the south side of the Columbia in several places above Associa. As the Potter stoamed use the broad, objectite stream the other night, the sight was a graid one.

A well of the south of the dense forests the flames which which with a florer, resy fury, lighting the value because and casting a "bateful glare" far and wide. In many places the fire and cilmbed to the very top of some of the lofty trees, and famined by the breeze, was burning floresty, limiteds of standing trunks were ablace, between which were intervals of profound darkness, it required but little structh of the langual to famey that the blezing forest was a city, the glowing flames representing the lights flashing from countless windows and an endless array of street buspe, the latter leaking, of course, regularity. Hemmed in by impendrable darkness, with huge, dim shadows cast here and there all directions.

A CONSERVATIVE COMPANY. The State Incurance Company, of Balem, Lessa Batween \$3000 and \$4000 Only in the Spakane Pire.

One of the most fortunate transaction composites uniforing losses by the late holocaust at Spokane Falls is the Biste, of Salem. The entire amount of insurance corried by this company in the burned district of that ill-flated city was \$65.00, half of which amount was reinsured in other companies. The actual losses of the "State" in the great fire will not exceed \$4000, Mr. Cottle, the officient manager, estimating his loss at between \$5000 to \$4000. Furing the last like years the State, of Salem, has insured more properly in Oregon and Washington than any other-company in the field, and this, taken in connection with the exceedingly small losses that the company has insured correct free at Sacrele, Elinaburgh and Spokaner, Falls, thair losses in these of like having been respectively \$5000, \$750. State (State India), the state of the company. The State under no corrumatione takes a take putside of Oregon and Washington. Their business during the last month was the largust in the heavy of the company, and Mr. Corrie estimates that during 1899 their books will show that their premiums are accary double what they are have been during any one year since

MANY SCARED POLICEMEN.

No One Knows O'ur Whose Head the Cleaving Hatchet Now Impends.

Offiners Byrns and Maher Were Bemered Bagover of Institution to Buty, and Officer Myers for Bearsightedness.

A sensation was created in police nircles yesterday by the announcement of the removal of police officers J. J. Byrne, Panlel Riaher and William Myers, who have always been looked upon as three of the most senspotent patcelsum on the force.

The stars of the trie were shaken from the mulicipal firmanant, at a star chamber session of the police board Monday night, Olark Matthews was requested to step outside, when the affable chief of police was ready to make his verbal charges against hyrne and hisher was that he expensive its section of the tries was that the top of the startes of a person across the street. This is, indeed, a pittful case. Officer Myers's eyes never failed him when it was necessary to find the jull when it was time to report on duty; they also helped him to lind every bit of ground on his beat. But then it is a orine for an officer to be unable to distinguish a person on the opposite side of the street, but no ortine for the officer who is bribed to be hilled to gambling and prestitution.

WHO WILL GO NEXT?

The removals caused the other officers to don their thinking caps in an endeavor to find out how such things can be, and who will be the next to go. Those who attended the meeting of officers in the police court come on the stunday before the recent city election, when this is and advised the assembled stars and advised the assembled stars and advised when the form to Gerdes tackt, but a preity god idea of the cause of the decapitations. They attributed them to the first the stars of the decapitations.

the Gerdes token, had a pretty good idea of the cause of the decapitations. They attributed them to politics.

The whole matter came about in this way: The police department has not been efficient for no one know a how long. All this was set forth in the editorial columns of Trie Gerdonian, coupled with the statement that Chief Parrish is incell-cient. Commissioners Simon and Cardwell are satisfied with the present chief, and as they constitute a majority of the board that settled it. Then some action was taken to recognizing and improve the force, and to hold Chief Parrish accountable for its conduct in the future. The chief unlatarished that it was not fair to hold him responsible the could not have the respect of some of his men. He was told to go shead and pick out those who did not have the proper respect for the man who receives \$4400 a year for wearing a gold star, and the commission would deal with them. The high lord-executioner has already sent three to the guillotine.

THE CHIEF DID NOT WANT HISL "Why was Officer Byrne removed?" asked an OREGONIAN reporter of Commissioner Frank yesterday.

"Because Chief Parrish did not want him on the force."

"Is that the only reason?"
"That's all."
Commissioner Franck "That's all."
Commissioner Frank is quoted by the Evening Telegram as saying: "The other men (Byrna and Maher) lost their places heaute they are accused of having beasted that Parrish hadn't sufficient influence to cause their removal, Such talk as that has a tenilency to destroy all the discipline in the department necessary to render it efficient."

that has a tention of to destroy all the disciprine in the department necessary to render it efficient."
"Why were the removals made?" was asked of Freedom't Simon of the police board.
"The object is to increase the efficiency of the force," he said. "Chief Parriah reported to those it that the offinars removed were inactunities, and had become inefficient and, for that reason, they were disminsed. The chief satisfied in a that it was to the interest of the force that they be dispisable." isselt."

ABOLUTELY PURE.

For quick raising, the Royal Baking Powder is superior to all other leavening agents. It, is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and nover fails to make light, sweet, most palatable and nutritive food. Cread, biscuits, muffins, cake, etc., raised with Royal Baking Powder may be exten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. H. A. Mott, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported :

"The Royal Baking Powder is absolutely pure, for I have so found it in many tesis made both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undqubtedly the purest and most reliable baking powder offered to the public.
